

Dear Sir,

After the great success of The 4<sup>th</sup> Gas tech Cairo 2008, we are going to organize "The 5<sup>th</sup> Gas Tech Cairo 2010" from 2 – 4 Oct, at Cairo International Conference Center.

The organizer aim to make this event more than an international conference and exhibition. It's the only credible and successful international meeting point for the region as it will involve all the leading decision makers in gas, oil, petrochemical industry and mining resource. The organizer's goal is to attract the professionals, international exhibitors, visitors and speakers.

All Egyptian and international gas, oil, petrochemical and mining resource companies will be invited to participate in this prestigious event to present their latest and highly advanced technologies. Furthermore, the scientific research centers and experts will address their up to date papers and studies throughout the proceeding of the conference.

On this occasion, we are honored to invite all the experts and consultants to participate in this conference and exhibition as their participation will have a positive effects to the success of this event.
